Christopher Cayten, LEED AP
Principal, CodeGreen Solutions

Mr. Cayten is a Principal at CodeGreen Solutions, a leading sustainability and energy efficiency consulting firm with offices in New York City and San Francisco. Mr. Cayten has more than 18 years of experience in sustainability consulting, architecture and development in commercial real estate in New York City and overseas. Mr. Cayten has vast experience creating and implementing sustainability initiatives for more than 300 million sf of commercial property around the U.S. Mr. Cayten has also worked closely with the New York City Mayor's since 2009 to develop some of the country's most ambitious programs to reduce the carbon footprint of buildings by 80% by 2050 to meet the UN climate change goals.   He sits on the IFMA ESUS (Environmental Stewardship, Utilities and Sustainability) Strategic Advisory Group and is on the Advisory Council to the Climate Museum, a startup museum in NYC to engage the public on the environment and climate change. He is an active member of Urban Green Council, and serves on the sustainability committees of BOMA NY, REBNY and CoreNet as well as the board of ScaleAfrica, a non-profit which develops and builds schools in Africa. Mr. Cayten holds a master's degree from the Yale School of Architecture and has spoken on a number of panels regarding energy efficiency and energy efficiency legislation in New York, Chicago, DC, San Francisco, and Los Angeles.
