

William Blair

Jeanette Scott Workplace & Real Estate Management William Blair & Company

Jeanette Scott joined William Blair and Company in 2005 as Facilities Manager. In 2013, she began to work on research for the relocation of the firm's headquarters, which began with a Workplace Strategy Assessment. This was followed by construction of Concept Space (an 8,000 square foot office mockup) and evaluation process. The results of this research informed many of the design decisions for the new office. In 2017, she relocated the firm's headquarters to the William Blair Building located at 150 Riverside Plaza. The headquarters occupy 13 floors across 362,086 square feet, housing 1,200 employees.

Prior to William Blair, Jeanette worked in accounting and facilities at Marsh & McLennan. Jeanette received her B.A. and M.S. from Indiana University, and her MBA from Loyola University.

When Jeanette is not overseeing construction projects or relocating offices, you can find her outdoors cycling, swimming or studying the French language and culture.
