

Karl Heitman, AIA, LEED AP, BD+C Founder & President, Heitman Architects Inc.

Founder and President of Heitman Architects, Karl brings 40 years of experience and expertise in the design of corporate facilities including a diverse range of industrial manufacturing, corporate consolidation, and redevelopment projects. As a differentiator, Karl has coupled his unique understanding of real estate value with emerging digital technologies to deliver sophisticated, high performance buildings that inspire and transform tomorrow's businesses. Recognized as the CoreNet Global 2016 Sustainable Leadership Award recipient, Heitman Architects is a thought leader for sustainable and technology-integrated architectural design. His national reputation for innovation is based on sophisticated facility solutions incorporating Virtual 3D data modeling and sustainable 'next generation' facility design for diverse clients across all sectors of the economy.

Karl currently leads the firm as Design Principal. He is an active member of the AIA: American Institute of Architects, DFC; Design Futures Council, and the USGBC: US Green building Council.
